DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard S. Finkelstein (Reg. No. 56,534) on 10/16/06.

The application has been amended as follows:

In claim 22, in lines 11-12, the term "wherein the first list of free buffer handles points to different register locations than the second list of free buffer handles" has been deleted and has been replaced by --- wherein the free buffer handles in the first list of free buffer handles point to different register locations than the free buffer handles in the second list of free buffer handles. -

--.

Allowable Subject Matter

Claims 22-29 and 31-32 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The prior art alone or in combination fail to teach or fairly suggest the free buffer handles of the first list of free buffer handles point to different register locations than the free buffer handles in the second list of free buffer handles, combined with the other elements of claim 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
